Auto ID Solutions presents “Summer 2006 Bar Code Quality Training Seminar”

Minneapolis, Minnesota, May 11, 2006 – Press operators, pre-press staff, quality managers, plant/production supervisors and others who work with bar codes will gain valuable knowledge of bar code quality specifications, bar code print quality and how it applies to the printing industry, and implications of low quality bar codes. This seminar will be presented July 11, 2006 at 8:00am and 1:00pm (Central Standard Time) in Minnetonka, Minnesota.

The practical seminar is designed so that attendees will walk away with a solid understanding of the causes of bar code failures and more importantly how to fix these problems. Regardless if a company is ISO certified or not, this seminar will teach the tools needed to improve internal quality processes and eliminate the risk of product rejection and the associated fines and penalties.

Some of the topics the presenter will discuss:

- ISO 15416-1 and ANSI X3.182 Methods
- Bar Code Verifier Calibration
- Retailer Bar Code Policies
- True Cost of Non-conforming Products
- How to Protect Your Company
- Operating a Bar Code Verifier
- Bar Code Troubleshooting

In addition to the interactive presentation, Auto ID Solutions is encouraging attendees to bring in bar code samples and their bar code verifiers. The seminar includes ISO15426-1/ANSI X3.182 bar code verifier accuracy testing and Auto ID Solutions engineers will be on-hand to inspect bar code samples and offer suggestions to improve print quality.

About Auto ID Solutions

Auto ID Solutions is a leading provider of linear and 2D bar code quality tools, providing in-house and on-site NIST traceable calibration and repairs, ISO/ANSI standards interpretation, staff training, and auto identification/bar code quality seminars. They are the only company offering NIST calibration and who tests every verifier to ensure conformance with ISO15426-1 (Bar Code Verifier Conformance Specifications). Headquartered in Minneapolis, Minnesota, Auto ID Solutions offers outstanding technical support with dependable delivery and quality.
